## Customizable Flexible Christmas Tree

This is a customizer for creating flexible Christmas tree ornaments. Create big ones, small ones, fat ones, skinny ones. All dimensions are customizable. Add an outline star or a solid star. Specify the number of points on the star. Add a stand for sticking it on a cubicle wall.

## Running the Customizer

This download includes a .SCAD file to create customized 3D printable models. By setting some simple parameters from drop-down boxes and sliders you can easily create your own customized model.

You will have to first install OpenSCAD (free software) on your own computer to process the .SCAD file and present the customizer

parameters. [Download OpenSCAD](#) and get started. For further details on running the customizer see DrLex's instructions on [How to Run Customizer on Your Own Computer](#).
