Summary

Stackable and interlockable cases for holding your favorite kingdoms together

[Toys & Games](#) > [Board Games](#)

Stackable & interlocking storage trays for sleeved Dominion cards.

Heavily inspired by [Popsicle_Peon's designs](#). I wanted to add the ability to interlock by half increments and of course I wanted to support sleeved cards.

My first design for these Kingdom Cases was good, but my brother told me it would be cooler if I supported interconnecting on any face so... back to the drawing board!

This design supports interlocking in any orientation. As a bonus, the stacking is much sturdier and doesn't require rotating the case around 180°.

I ended up springing for all of the colors to print these out, but the labels on the prints should help keep the cases sorted.

Enjoy!
