I make these per request, so DM me, or email me at 3D@ezraharris.com, and I will try to get back to you as soon as possible.

If you're using Cura, I made a short tutorial video here for how to print it:

I'm making valorant keycaps for free. Liking or downloading is a great way to support, and I am hugely grateful for anyone checking out my designs (:

I make these in 3D builder using a simple Emboss tool and the pictures from the Valorant Fandom site.

NOTE: For Yoru's abilities, he has more detailed designed symbols, so they may not appear in your slicer if you're quality settings are lower.
