Tags: [archery](#) [arrow](#) [barebow](#) [compound](#) [recurve](#) [tool](#)

Simple tool to stop your arrows from rolling off your scale, Printed in PLA at 10% in-fill to keep the added weight minimal.

To find FOC, balance the arrow on the middle grove, slide the second one under the mid point of the arrow. measure the distance between the two. see picture for example.

Let me know if there's any idea for improvements!

Thanks!
