All the organizers for the second edition of Tyrants are designed around the cardboard tokens. I wanted something that would work with 3D printed upgrades.

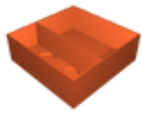

These trays have been designed to be used with the following components:

- Troop tokens: <https://www.thingiverse.com/thing:3882909>
- Spys: <https://www.printables.com/model/225072-tyrants-of-the-underdark-spy>
- Inner Circle: <https://www.printables.com/model/226099-tyrants-of-the-underdark-inner-circle>

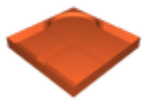

You will need to print
