Summary

Magnetic catch to secure a door

[Household](#) > [Other House Equipment](#)

Tags: [door](#) [magnetic](#) [catch](#)

Use: Simple magnetic catch to secure printer enclosure door. Could be used for many similar applications.

Design: Catch is 1 3/4" wide by 3/4" deep. Slots are sized to fit a #6 screw. Counterbore is sized for a 10mm by 3mm disc magnet. Through hole provides access to push magnet back out and for excessive glue to squeeze out.

Assembly: Epoxy the magnet into the counterbore

Print settings: Support, PETG or similar
