Summary

Magnetic Clipboard for School, Office, etc.

[Household](#) > [Office](#)

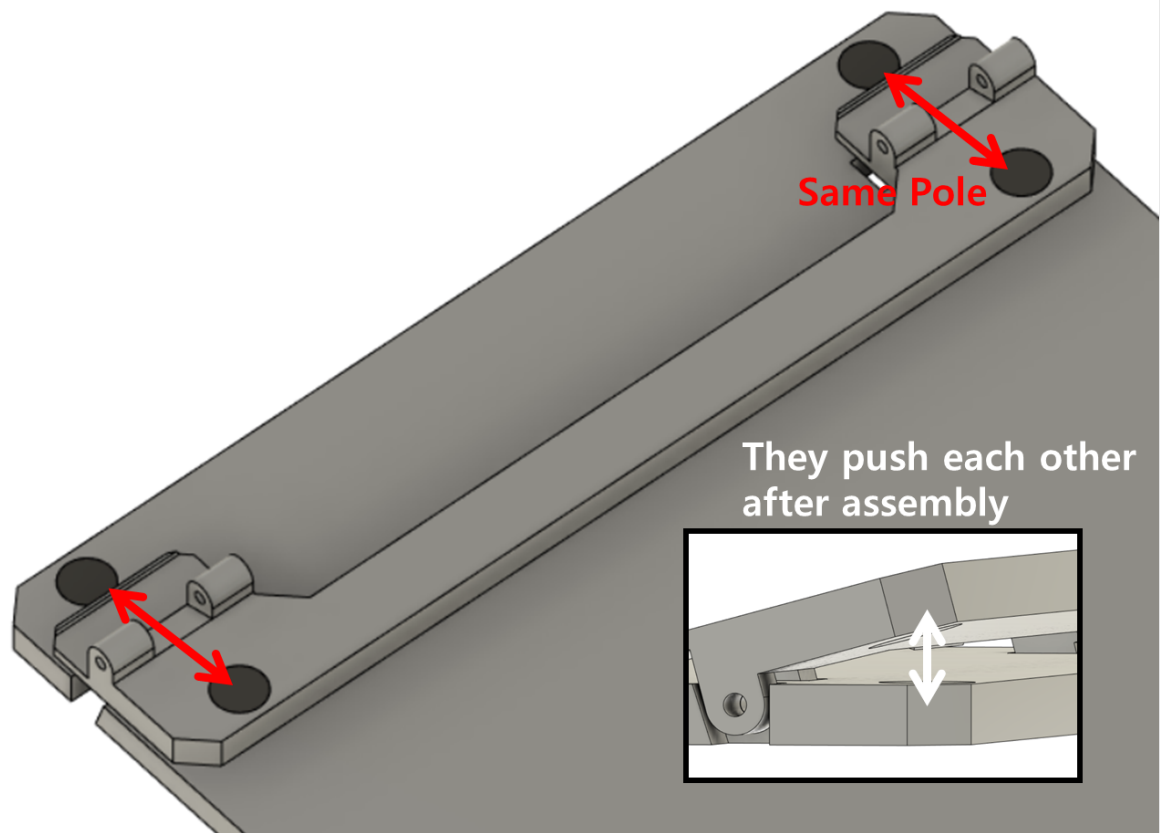

Tags: [clipboard](#) [magnet](#) [office](#) [paper](#) [school](#)

This is a convenient clipboard, designed to be simple, intuitive and easy to use for practical use.

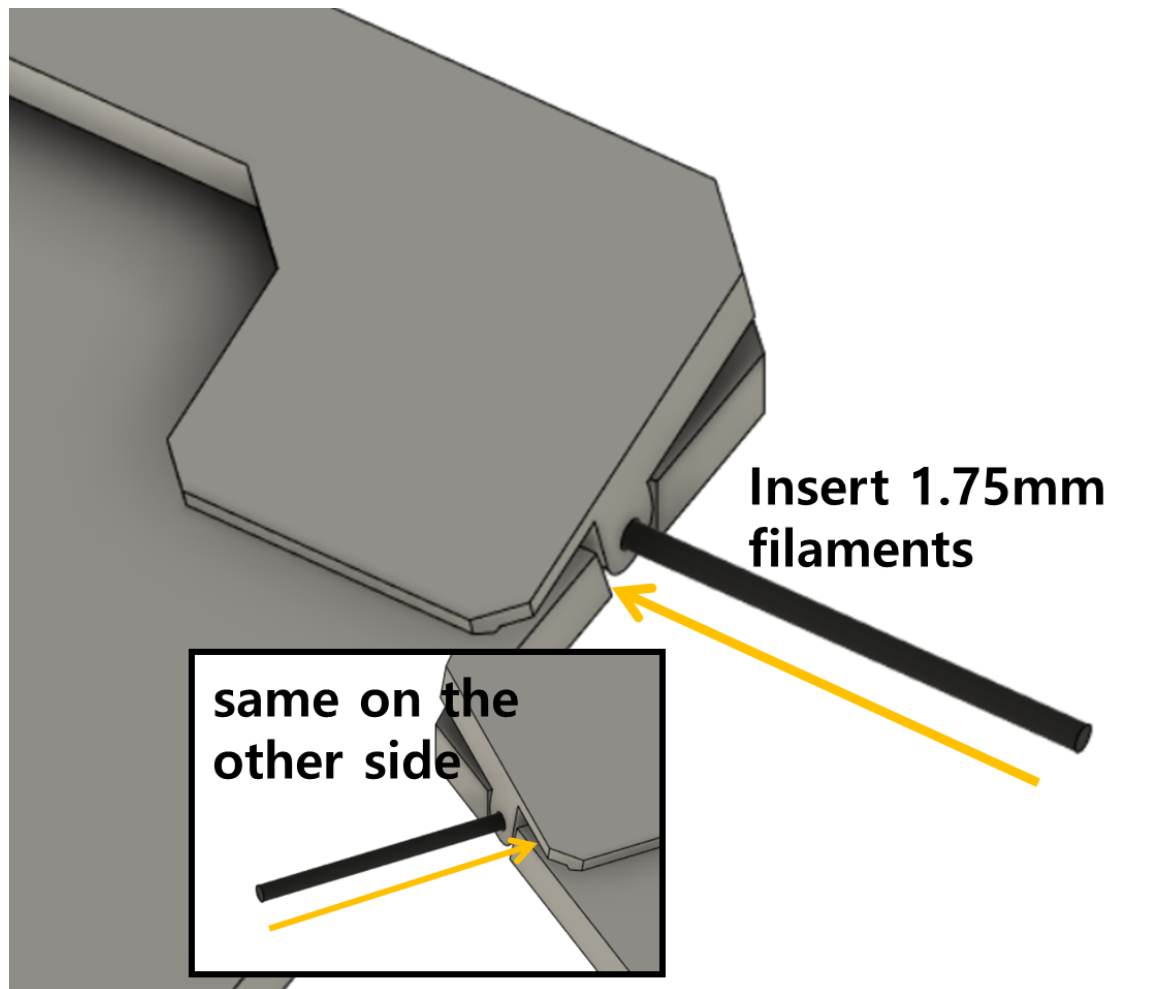

The clip section only takes up 7mm of paper so you can save paper.

It uses four 8*3mm neodymium magnets (two for mini versions).
All parts are aligned, you have not to rotate and support.

Assembly 1, Set Magnets

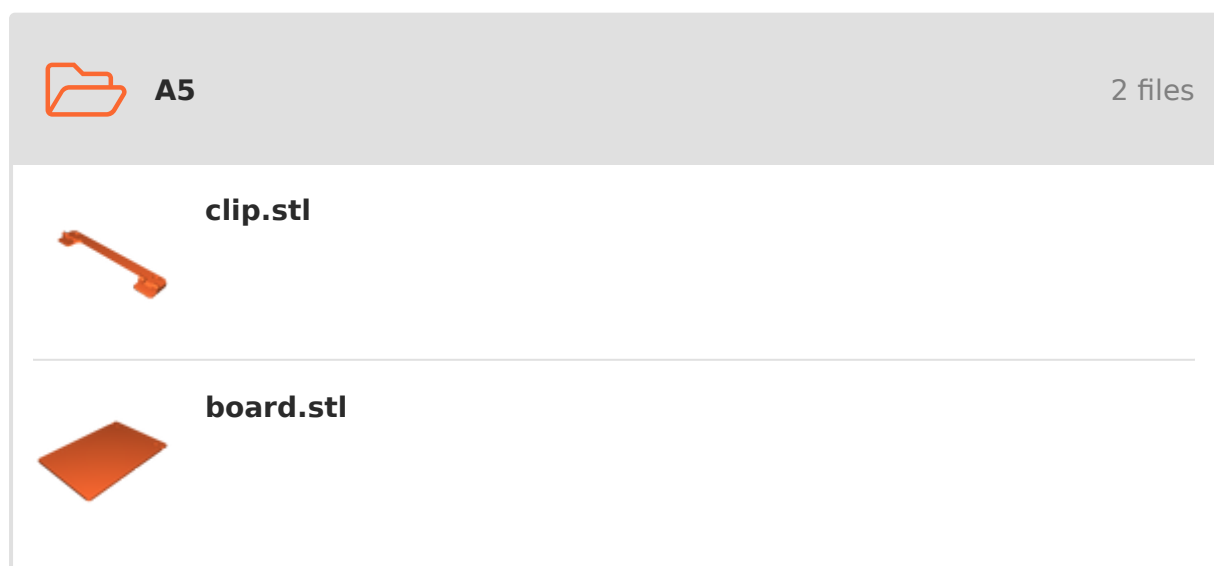

Assembly 2, Insert filaments

That's it! Enjoy now.
