updated 5. 8. 2022 | published 5. 8. 2022

### Summary

Premium ;- ) version of my previous model. This is one has movable arms!!

[Household](#) > [Other House Equipment](#)

Tags: [airflow](#) [changer](#) [cleaner](#) [direction](#) [g10](#) [vacuum](#)  
[vacuumcleaner](#) [xiaomi](#)

I've changed my last model completely (<https://www.printables.com/pl/model/252464-airflow-direction-changer-for-xiaomi-mi-vacuum-cle>).

Need to print elbow (or arm) twice. I recommend printing in PETG (or ABS)  
- PLA may be softened by the warm exhaust air)
