After breaking the cap to my small seam ripper, I searched Thingiverse and was astounded to find no replacement, so I set out to remedy that lack. The Space Pen cap had the closest shape, so I resized it in TinkerCAD to fit and printed with a brim.

The printing ridges make it stay on very well, and the bright color ensures that I won't lose (or step on) it again.

Print Settings

Rafts:

Yes

Resolution:

0.3

Infill:

None
