I was having trouble unscrewing the plate of my sewing machine when the thread got snarled down below. A regular screwdriver wouldn't work because of the lack of clearance, and the tool that came with the machine was almost useless (see the last photo). I just needed a minimal handle to get a better grip on a screwdriver bit, so I made one. 3-D printer to the rescue again!

Created with Customizer! [http://www.thingiverse.com/apps/customizer/run?thing\\_id=722125](http://www.thingiverse.com/apps/customizer/run?thing_id=722125)

## Print Settings

### Resolution:

0.3

### Infill:

25%

### Notes:

PLA

## Instructions

Using the following options:

B\_Thk = 0

Rows = 1

W\_Thk = 2

ID = 6.7

Open\_Tray = 0

P\_Style = 0

Cols = 1

Ht = 30

Category: Hand Tools
