### Summary

This is version 2.0 of the dice tower I remixed. Version 1 was nice but you could not drop more than 1 die at a time...

This is version 2.0 of the dice tower I remixed. Version 1 was nice but you could not drop more than 1 die at a time and even then they might get stuck in the throat. I am using the official Alien RPG dice. I took it into Meshmixer and totally redid the geometry of the neck and throat. Moved the lower jaw back so it would fit with the angled base.

The dice just FLY out now, even a full handful. I added some ridges and angles in the throat to add a bit of randomness to the dice roll. Works AMAZING now!
