Summary

a way to mount the XT60 and VTx antenna on to your GepRC MK5 FPV Frame

[Hobby & Makers](#) > [RC & Robotics](#)

Tags: [antenna](#) [drone](#) [fpv](#) [geprc](#) [mk5](#) [mount](#) [vtx](#)
[xt60](#)

a nice way to mount the XT60 and VTx antenna on to your GepRC MK5 FPV Frame

the XT60 is angled to also accept 5.1" props and you might have to solder the XT60 cable at an angle to accommodate a VTx, etc. like me
