### Summary

Simple flat print, with self draining shelves, interference fit, with optional hooks

[Household](#) > [Bathroom](#)

Tags: [conditioner](#) [holder](#) [mount](#) [shampoo](#) [shower](#)  
[showercaddy](#) [soap](#)

Stick on shower caddies SUCK so I designed this one for mounting on a frameless glass panel, quick to print as all flat parts - apart from hooks if you need to use them for showergel etc.

Self draining design

Shelves need to be tapped into place, depending on your printer tolerances. I used a soft screwdriver handle to tap them home.

Print 1x body

3 large shelves

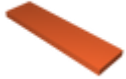

2 small shelves

one large shelf acts as soap dish sideways at the bottom, hooks can be printed and slid into place on soap dish if needed
