I wanted an Atlas holding a Google Mini, and I couldn't find one. I don't know how to do 3d modeling, so I just combined existing models in Prusa Slices with some slicing and negative volume objects.

Added some support enforcers, so you can print with support enforcers.

remixed from <https://www.thingiverse.com/thing:4411125> and <https://www.thingiverse.com/thing:3340643>
