updated 16. 5. 2023 | published 16. 5. 2023

Summary

Adapter for the Ortur Z-Adjust that works with the newer LU2-10A laser module.

[ortur](#)

The Ortur Z-Adjust Unit does not come with a plate that works with the newer LU2-10A laser module. This piece screws into the adjustment slide that is mounted on the X gantry, and then the laser attaches the same way it attaches to the stock mount.

No special hardware needed; it uses the hardware that comes with the Z adjust kit.
