### Summary

Bracket to join to Malm drawer units

[Household](#) > [Bedroom](#)

Tags: [bracket](#) [ikea](#) [joining](#) [malm](#)

I made this bracket to securely mount two drawer units together. It uses 3.5x20mm wood screws. Be careful when screwing the screws, overtightening will crack the layer lines.

I use standard Voron settings - 5 top and bottoms, 4 perimeters, 40% infill.

Print this on it's side for best results.
