Summary

My cat Rusty as a fridge magnet (Ø6mm magnet)

[Art & Design](#) > [2D Plates & Logos](#)

Tags: [cat](#) [fridge](#) [fridgemagnet](#) [fridgemagnets](#) [rusty](#)

Rusty my real cat as a fridge magnet, based on Sas's nft which was based on a photo montage I had made. She is a creator of cat stickers on the Wax blockchain, she created personalized cats, go see her site! <https://www.catstickersnft.com/>

Print:

0.2 maximum layer thickness and a 0.4 nozzle with support for mustaches, remember to put your color change!

After printing:

You can paint the white spot or print the attached file and paste it
Paste Ø6 Magnet (hole: Ø6.2 and 6.5mm deep)

This is my biggest design for now, I spent a lot of time so please if you like it, please like and share your prints :)

Happy printing !

This remix is based on

Rusty "Deal with it" keychain
