Winter is coming for your Sharpies! Gear up to soak in House of Dragons with your own Iron Phone Throne.

The Throne holds 10 of your favorite Sharpies in the perfect position for accessibility. On top of that, it holds your smart phone in an ideal place for content enjoyment. It is not limited to iPhone or Android, in fact it can hold most any smartphone you try. It is a great gift for any adamant Game of Thrones enjoyer, or you could just print it for yourself! It is the best accessory for watching House of Dragons or even rewatching the original series on your phone, from the comfort of your desk, while you work. ;)

Printed on Prusa MINI with 20% grid infill. I used Galaxy Black Prusament PLA 0.20 mm layer height. I did not use any supports and the print came out beautifully. I designed with Fusion 360.

You will love it! Hodor!
