Summary

A custom extruder mount

[3D Printers](#) > [3D Printers - Upgrades](#)

Tags: [extruder](#) [3d](#) [bondtech](#) [printer](#) [feeder](#) [qr](#)
[bondtechqr](#)

I printed the parts in black Ultimaker Polycarbonate to get a bit of overkill combination of strength and heat resistance, but almost any plastic should really work unless you will use it inside a heated chamber, PLA can be just on the limit with the stepper heat.

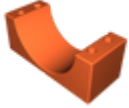

Material needed:

- 8 pcs of Bossard B3/BN1054 M3 heat press insert
- 4 pcs of 30mm M3 machine screws
- 4 pcs of 10mm M3 machine screws
