### Summary

This goes onto the actual collar rather than dangle, so it's less likely to get caught and fall off.

This goes onto the actual collar rather than dangle, so it's less likely to get caught and fall off. Also it's a snug fit, so you might need to break it to get the tag out to break it.

I accidentally made it too big for my 15 lb dog's collar, so I'm going to make a smaller collar design as well.
