Summary

A simple bicycle chain guard created with JSCAD, so the dimension, number of screw points etc can easily be modified.

Tags: **bicycle** **jscad**

Simple chain guard with screw holes for attaching it to a bike. Source code can be found here: https://github.com/brujoand/XYZ-models/tree/master/bicycle_chain_guard

Printed without supports and 15% infill in PLA, but could probably benefit from a tougher material like PETG.
