updated 6. 8. 2022 | published 6. 8. 2022

Summary

A box that fits the vesa mounting behind a tv to stuff in cables and other dangly bits

[Household](#) > [Living Room](#)

The 'base' fits a 75mm vesa mount (M4 screws), the 'cables' has a number of holes that should let through easily also thick hdmi ones, add as many 'extension' you need (vented or not) and close it with the 'cap'

I printed it at 0.2 10% infill, everything with supports except the base

If there is a demand i'll widen the model to fit other vesa standards
