Tags: [cat](#) [catattack](#) [funnysign](#) [funnywarningsign](#)
[warningsign](#)

A simple German remix for the **“Attack Cat” warning signs**. I took the cat mesh from **“Hunting cat”** and redesigned the rest.

Fills an MK3 sheet almost completely. If scaling down, reduce XY only (leave Z unchanged for the correct effect). Print at 0.2 layer height. PrusaSlicer detects the color-changes correctly (colors transitions from white → black → red).

This remix is based on
