Summary

I wanted to add a spoon to the card sized knife-fork-toothpick kit in case I need to stir the sugar in my coffee

3.02 hrs

2 pcs

0.10 mm

0.40 mm

PLA

15 g

Prusa MINI /
MINI+

Starting from the original model → <https://www.printables.com/model/207534-card-sized-knife-fork-toothpick-kit/comments> published by [Ruben Martins](#) I wanted to add a spoon to the kit

I designed it using Fusion 360 and printed it in white PLA with my Prusa MINI using PrusaSlicer standard parameters and 0.10mm layer height

Model can be scaled to have bigger kit

I apply a layer of water based food contact varnish to make it waterproof and more food contact “compatible”

If you want to print also an holder for your card sized knife-fork-toothpick kit with spoon here it is → <https://www.printables.com/model/513990-holder-for-card-sized-knife-fork-toothpick-kit-rem>

On top of .stl and .3mf files I uploaded Fusion 360 .f3d one so you can modify the design and adapt it to your needs

As usual, feedback and comments (and for sure "likes") will be always welcome. Feel free to post nice pictures of your makes

Enjoy

If you like this model, take a look also at [my other designs](#)

EDIT 14/08/2022

Following messages exchanged with [MKBecker](#), I modified the design to reinforce links and posted related print files

EDIT 01/07/2023

Add link to the holder I designed for the Card sized knife-fork-toothpick kit remix with spoon

This remix is based on

card sized knife-fork-toothpick kit
