Summary

Remixed the base to connect to the Ender 3 S1 octopi drawer

Tags: [crealityender3s1](#) [ender3s1](#) [ender3s1camera](#)

A simple remix of the base, so that instead of being connected with screws to the rail, it can be connected using an M3 screw acting as a hinge to the Ender 3 S1 OctoPi drawer (<https://www.printables.com/model/136226-ender-3s1-raspberry-octoprint-rpi3-rpi4>). Useful for Ender 3 S1, given the annoying full-body rails.

This remix is based on

CR10, Ender Logitech c920, c270, c310, c910 20/20 camera mount system
