This is a set of boxes for helping to organize your card collection. It's sized for your standard card sizes you'd see in trading card games, and collectable cards. It should fit sleeved cards, but it depends on how loose the sleeve is you're using.

The boxes are stackable and come in 3 sizes. 100mm, 200mm, and 300mm. In addition there are a few provided accessories to help keep things organized. That includes an insert divider, that inserts into the grooves on the side. There's a tab divider, which can be used to further organize your cards, and lastly there's 2 spacers. 15mm and 25mm. Useful for when you want to reduce the amount of empty space, so your collection is held a little tighter in place.
