[decorate](#) [caffeinemolecule](#) [walldesign](#)

Tried to design a simple Logo of my favorite drink and came up with a few ideas to put on the wall. (personal favorite Version 2-2.2)

I choose a thickness of 1 mm, although you are free to change it up on your part, simply by changing the Size on the Z-Axis in your slicer

Dimensions of the different parts:

- 75x70mm (Caffeine structure without letters & bean logo)
- 100x90mm (Caffeine structure without bean logo but with letters)
- 160x130mm (Caffeine structure with bean logo)

(also to change size the part to your desired dimensions → X-, Y-Axis))

# Model files

## 1-10.stl

☐ with N, CH3, Coffee bean

---

## 1-20.stl

☐ with N, CH3

---

## 2-21.stl

☐ with CH3, Coffee bean

---

## 2-21-ch3-seperated.stl

☐ with N, CH3, Coffee bean / CH3 seperated

---

## 2-22.stl

☐ with CH3

---

## 2-22-ch3-seperated.stl

☐ with CH3 / CH3 seperated

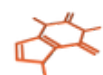

---

## 3-10.stl

☐ simple structure & coffee bean

---

## 3-20.stl

☐ simple structure

---

## 41.stl

☐ coffee bean

---

**42.stl**

☐ Thicker coffee bean
