Summary

Seatbelt latch plate for Toyota Tundra

[Hobby & Makers](#) > [Automotive](#)

Tags: [plate](#) [seatbelt](#) [seatbeltplug](#) [seatbeltclip](#)

Use: This is a seatbelt insert for a Toyota Tundra. Should work on other Toyota's as well. This prevents an annoying beep when I back my boat into the garage and need the freedom to move without a seatbelt on.

Do NOT use this for road use when there are humans in the seats. Please wear your seatbelt's!

Design: Has two openings to allow strapping down items in the back seat.
