[vcore31](#)

DIN rail mount for a MeanWell LRS-200 series power supply to mount to the center and upper rails of a RatRig V-Core 3.1 500mm3. This aligns the bottom of the supply with my other LRS series mounts.

You will need to print 2, one of them should be mirrored in your slicer.

I have included STEP and FreeCAD sources if you want to modify this.
