Summary

Orange Pi 4 LTS DIN rail mount

[3D Printers](#) > [Accessories](#)

Tags: [orangepi](#) [orangepi4](#) [orangepi4lts](#)

I designed this to mount my Orange Pi 4 LTS to my RatRig. You will need to install M3 heat inserts in the mount and use M3 standoffs (I recommend 3-5mm long).

There are horizontal and vertical versions included.

I have included STEP and FreeCAD sources if you want to modify.
