Summary

Mounts that latch onto the headrest poles available online aren't stiff enough for videography. Here's my solution

[Hobby & Makers](#) > [Automotive](#)

Tags: [camera](#) [car](#) [gopro](#) [mount](#) [phone](#) [photo](#) [video](#)

The main goal was to minimize the requirement of off-the-shelf components, to make majority of the assembly 3d printable.

You will need some parts from <https://www.printables.com/model/254554-car-phone-camera-mount>
