### Summary

Foot Plate for Root 3 CNC Y Axis Bar mount

[Hobby & Makers](#) > [Tools](#)

Tags: [baseplate](#) [cnc](#) [foot](#) [mpcnc](#) [plate](#)

I updated mounting those Y axis bar mounts to the CNC table with wood screw from above. I used 4,0x30 mm wood screws to attach to the CNC table. I used M3x16 machine screws to attach to the bar mounts.

#### Printing instructions:

- filament PET-G
- print in the position as it is assembled on the CNC table
- 0,2 mm layer height
- with support
- infill 60%
