Summary

I loved the Task Planner by Nils Kal but wanted to add my own tasks.

[Household](#) > [Kitchen](#)

Tags: [planner](#) [taskmanager](#) [tasklist](#)

This is a remix of the awesome [Household Task Planner by Nils Kal](#). I wanted to make my own version so I edited the coverplate so that I could start from scratch.

Uploading the blank coverplate in case anyone want to make their own. It's easy to add text in any 3d editor, even TinkerCAD would do the job.
