Universal mount that can be attached to the X-axis motor using a standard M3x18 screw that comes with the printer. Compatible with NEXIGO, Logitech and other webcams. This design is different from others in that it preserves the design symmetry around the X-axis motor shaft. This comes with a thumb screw that can be used to tighten any standard camera.

### Recommended Settings

Material: PETG (Recommended) or PLA

Supports: No

Layer Height: 0.15 (recommended) / 0.2 for mount | 0.15 for screw

Infill: 25% Gyroid (or Grid) for mount | 100% Rectilinear for screw
