[stepladder](#)

This is a 1/10 scale folding stepp ladder. Somebody suggested that since I already had the chair and the table, I should make a stepp ladder for mini wrestling. I thought it could be fun but then I thought I could make something that had more things with movement.

It has many different

Features:

- Lightweight
- Folds up tight and compact for easy storage

To complete this build you will need M1 screws, a paperclip and pliers to cut the paperclip. Please see PDF with instructions.

I hope you like it!
