Summary

Remix of original design to fit M3 heat set insert

[3D Printers](#) > [Prusa Parts & Upgrades](#)

Tags: [prusa](#) [prusabear](#) [prusai3bearupgrade](#) [heatsetinsert](#) [heatsetinserts](#) [prusabearmk3](#) [prusabearmk25](#)

This is a remix of an original desing https://github.com/gregsaun/prusa_i3_bear_upgrade .It made for M3x4x8 heat set inserts to use with M3x18 screw from Bear Upgrade.

There are two stl-files in attachment - for Bear Upgrade MK2.5 and for Bear Upgrade MK3.

I printed this model with black PETG by Bestfilament on Original Prusa smooth PEI sheet.

UPD 20.02.2024 rev2: Fix the holes dimentions. Now the holes diameter 4.7mm instead of 4.6mm

This remix is based on

[GitHub - gregsaun/prusa_i3_bear_upgrade: Stronger frame for Prusa i3 MK2\(s\), MK2.5 and MK3](#)
