updated 15. 8. 2022 | published 15. 8. 2022

## Summary

Webcam cover for notebook.

---

[Gadgets](#) > [Computers](#)

---

Printed with nozzle 0.2mm and layer 0.1mm.  
It should be printable with bigger nozzle; only important to use layer height ~0.1mm.

Material: it doesn't matter. I have used ABS.  
Cover mounted with double-sided tape.
