[water](#) [waterer](#)

This is a waterer for young chickens, quail, turkeys, etc. It uses a regular mouth canning jar. The Aldi's spaghetti sauce has a mason jar top, so they work perfectly.

It is shallow and narrow to keep the chicks from walking in it. However, this feature would make it unsuitable for ducks.

Be sure to check out this [Safety Ring](#) by [Kim](#) if you have little birds.

UPDATED: Made things a little thicker and more durable. Widened the base to be more accessible to larger birds. Changed to one hole per [Ciaocibai's](#) recommendation.
