Tags: [organizer](#) [cups](#) [stanley](#) [stanleycup](#)

Use: These Stanley 25 compartment organizers are great for organizing a variety of small items. I found that I needed more small and medium sized cups. These allowed me to optimize the ratio of correct size cups for my needs. The med sized cup is equal to 2 small cups. The large sized cup is equal to 2 med sized cups. This design makes it easy to mix and match the correct size cups.

Design: I did not add the small feet to the bottom of the cups as the cups stay in place without them. This simplified the print.

Small cup approx: 1 1/2" wide by 2" long by 1 1/2" high

Med cup approx: 2" wide by 3" long by 1 1/2" high

Print Settings:

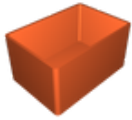

Supports: No

Infill 30%

Material: PETG or similar

Resolution: 0.2-0.3mm
