I wanted to hang my McLaren F1 horizontally, but I couldn't find a bracket for it. So I made one!

Fusion 360 files included, feel free to modify. The screw holes might be a bit small, but I had no problem with 4mm screws.

Gcode file is made with Cura 5.1.0 for Creality Ender 3, with brim as I got some warping on the first prototype. Supports used for the little hooks.
