TURN ON: Print Tiny walls! I did my best, but it was really time consuming to make it totally solid in the inside... so some walls are tiny depending on the scale you make it in. so check your preview fist in you slicer, Before printing!

I have made a 1/6 scale these can be used for like those action figures that use the 1/6 scale weapons.

wall thickness 4, infill 20% should be more than enough. but use your own judgment on it

for the promoting the FGC9 it would be nice so see some fun time laps movies of this. or some crazy colours! be creative with it. or use the 1/6 action figures.
put it out there.
