Summary

Add whatever text you want to the Material Swatches.

[3D Printers](#) > [Accessories](#)

Add whatever text you want to the Material Swatches. UPDATED 08/2022!
- Now with a steps version too!

Print instructions

I took the Material Swatches and re-created them in Fusion360 so that I could add the name and material type to the swatch. I thought I should share so someone wouldn't have to do it again.

If you want me to upload the materials I've done, please leave a comment and I'll keep this up to date with my swatch collection.
