This is a sci-fi-themed base inspired by (and for use with) Star Wars Legion. However, with a classic sci-fi/industrial look, it can be used for plenty of other miniatures!

By default it will print at a size similar to a 27mm Legion base. There are two full-base variants, one with a bit of detail on the side, the other with plain sides. I've also included a quick-to-print chip designed to fit onto the standard Legion bases (and with a little scaling, any other round base).

This is a sample design of 8 that I've uploaded as a set at my Etsy store: [https://www.etsy.com/listing/848949558/3d-printable-imperious-legionnaire-sci?ref=shop\\_home\\_active\\_1](https://www.etsy.com/listing/848949558/3d-printable-imperious-legionnaire-sci?ref=shop_home_active_1)
