Inspired by the 90s arts and crafts craze this blow pen fits a Sharpie marker

use it to make freehand airbrush art or grab a stencil and be your own banksy.

fits standard sharpie marker, brand new markers work best.

demonstration on how to use.

the mouth piece has a built in cap for the sharpie marker. this should be used only for short term storage of the marker, in my testing the marker will eventually dry out.

print settings:

settings i used in Cura 5.0

- layer height = 0.2
- no supports
- wall line count = 5
- Z seam = sharpest corner
- infill = 20% (print should be mostly walls)
- bed adhesion = brim @ 6mm (this is a necessity)

happy printing

this blow pen is 100% my own design.
