Cup holders for your MK1! This uses the cabriolet style shift boot, kinda. I also made the cup holes a little small, it fits a can tightly. A water bottle will fit, but the tapered mcdonalds cups or anything else probably wont.

It's not totally perfect, but it's good enough for me.

4/14/23: I added another section of tray that will hold a usb charger. I also added seat heater switch holes to the cup holder. And added a couple of less disgusting pictures.
