## Summary

19" 1U Rack Mount designed for the Unifi 8 Lite POE Switch. Snug fit in the rack and for the switch.

Tags: [mount](#) [rack](#) [switch](#) [unifi](#)

Since I was never able to find a rack mount for this switch, I designed my own instead.

Print this with the front facing down and no supports are required.

Please excuse the low quality print. I broke my hotend yesterday and haven't tuned in the replacement fully yet.
