Tags: [walldcoration](#) [walldecor](#) [treeoflife](#)

Allows you to print with a domestic 3D printer a large tree of life to hang and decorate your wall. 5 separate pieces can be printed and then join together like a LEGO.

Required material: printed parts x5, x4 Ø3,5x35mm universal screws and x4 Ø5 plastic fixings.

Using PLA as a printing material, the strength of the product is enough to fulfill its function.
