updated 8. 8. 2022 | published 8. 8. 2022

Summary

It's a remix for X2 Delta P Fan (90-degree rotated). The only differences are gentle slopes for better printing.

It's a remix for the excellent X2 Delta P Fan (90-degree rotated). The only differences are gentle slopes for better printing (I had my issues with ABS). There is no change in the design of the inner tunnels - so the result is the same except for the visual aspect of the printing - also I added Printable logo in front.

This remix is based on

[Remix] X2 Delta P Duct [V2R2.2] for the MK3S(+)
