Update 30/11/18: I realised it was stupid to print the object in that orientation and produced worse quality and weaker prints, I have added a V2.

This is for a Abus Super Ultimate D-Lock, I no longer have the original mount.

The mount is 29mm in diameter but I have included the slide part I made, so you can use my [Customizable Handlebar Mount](#) to make it fit your bike.
