I Have not yet been able to print this myself (No printer as of yet) so I am not sure on the strength of it with such big holes in the sides.

Customized version of <https://www.thingiverse.com/thing:526257>, Go there for the air vent clip file.

Created with Customizer! https://www.thingiverse.com/apps/customizer/run?thing_id=526257 and edited using Tinkercad to make side holes bigger.

This is the case I have on my S9 (Which is a great case by the way)
